Experience:

Software Engineer; Change Healthcare. San Mateo, CA
November 2018 - April 2020

- Working on integrating Apple Pay JavaScript API into the Next Generation payment platform
- Working with a team on building a new UI for their payment platform checkout experience in React and React-Native frameworks
- Working on creating and integrating Change Healthcare APIs and their functionality into their Next Generation platform

UI/UX Web Developer Intern; Change Healthcare. San Mateo, CA
June 2017 – September 2017

- Worked with a team of Web Developers and UX Designers for the Change Health Web Printing Service Portal.
- With the Web Developer team, helped identify and fixed various bugs and problems with the Javascript code in the web portal. Also helped with researching new technologies and created side projects utilizing React, Yarn, JS Documentation for scaffolding their new product.
- With the UX Design team, worked with identifying strengths and weaknesses with core workflow for their current web services. Helped take user feedback and brainstorm potential new strategies for creating better user task flow.

Web Developer Intern; Tang Capital Management LLC. San Diego, CA
August 2016 – September 2016

- Worked on a small team of Web Developers on the iOS application, PianoNow.
- Helped develop the frontend of the application and integrate features such as user accessibility services and searches. Using JavaScript, AngularJS, HTML, CSS, helped program core features.
- Utilized data analysis resources to perform analytics.
- Pitched and developed features that became integrated within the application with the team. Taken feedback and addressed feedback from user testing services and integrated that information into the application.
